

## TELEGRAPHIC.

Crazy Doukhobors  
Altogether Beyond Control.

## AN UNFORTUNATE EXPERIMENT

Yorkton, Oct. 29.  
"I think it is beyond reason to parody with the Doukhobors any longer. Examination, hunger and sleeplessness have rendered their condition such that they can no longer be reasoned with. I have worked night and day with these misguided people, and must confess defeat, so far as inducing them to return to their homes is concerned. One thing is certain. The Doukhobors must be taken care of. I have given the authorities at Ottawa to give their condition most serious consideration. It is impossible to predict the outcome. It seems to me that forces in now necessary, as reason and kindness has failed if disaster is to be prevented. The frenzied Russians must at once be abandoned to their mad march. I can suggest no method to bring this about." This statement of "Colonization Agent" Sapers, this m., is a summary of the situation. Children are in a bad condition. Two women are insane, and the men are tramping to Silets.

## STEWART RETAINS THE LIGAR SEAT.

Winnipeg, Oct. 31.  
The judgment of the court has sustained Mr. D. A. Stewart, M. P., in his seat for Ligar.

## THE COAL STRIKE AGAIN ON

Mitchell has ordered the renewal of the strike at Hazelton collieries and mines.

## FRONTLINE REFUSES SPEAKERSHIP

Ex-Mayor Prefontaine, of Montreal, has declined the speakership of the convention.

## CONSERVATIVE LEADER DECLARES AGAINST THE BRITISH PREFERENCE

F. D. Monk, the Quebec conservative leader, has strongly urged the repeal of the British preference.

## F. DELLEY IS DEPUTY SUFF. GENERAL OF INDIAN AFFAIRS.

F. Delley is to be appointed assistant superintendent of Indian affairs at Ottawa.

## GENERAL.

The Doukhobors women in Yorkton desire to return to their villages. The men have reached Silets, going east. Their mission is to christianize the world.

The Rt. Hon. Mr. Hanbury, president of the board of agriculture in Britain, proposes to the cattle supplies of the future will come from Argentina.

It is asserted in Brussels that Mr. Kruger has abandoned his irreconcilable attitude and intends to seek permission to return to South Africa.

Six firemen were injured last night at a fire which caused damage to the amount of a quarter of a million in Minnesota.

General Wellington Booth will establish training schools for Volunteers of America in several of the United States cities.

The manufacturers of Canada have officially expressed little desire for a revision of the customs tariff.

Seven steamers were loading wheat at Port William Thursday and carried out 400,000 bushels.

Santa Maria volcano has been in eruption and has devastated valuable coffee plantations.

Secretary Moody, of the United States navy, department, favors reciprocity with Canada.

The miners' commission made a careful inspection in Severn district.

Former Capt. Milne, of the C. P. R., was banquipped at Moose Jaw.

Eleven McColl, of Winnipeg, veteran Indian officer, is dead.

The British column under Col. Swaine has safely reached Berber.

The Montreal Longshoremen have won the strike.

The wheat market was very quiet yesterday.

The Canadian shoe combine proposal is off.

J. T. Neil, of Clover Bar, finished threshing last week having forty acres of wheat that yielded one hundred bushels per acre. The balance averaged seventy-five bushels per acre. The seed oats that this yield was grown from were tested at Ottawa, giving a test of thirty-five strong plants and forty-five weak ones. He was strongly advised not to sow them, but to try and secure better seed. However, he sowed them three bushels to the acre and received the above results.

J. J. Saunders, acting deputy commissioner of public works for the Territories, arrived in town Wednesday evening. Yesterday morning he drove out to Fort Saskatchewan and Clover Bar districts with Engineer Driscoll on a tour of inspection.

Lawrence Adamson, a well known settler of the Clover Bar district, returned Monday night after an absence of over a year, during which time he travelled through the Southern States and South Africa.

Chas. May is building a terrace of three solid brick houses on Fraser avenue, each 24x30 feet with kitchen, bath and with cellar and upstairs. They will be attended with furnaces.

Many teachers hearing the contention in Strathcona this week took the opportunity to visit our town and note the rapid strides of advancement that are being made.

John Howey, former business manager of the Post, who left for the coast last August, returned Wednesday night and has again taken the management of the Post.

## LOCAL

## THE SITUATION AS TO THE EX-MINISTER OF PUBLIC WORKS

Seldom if ever has there been a political event of such importance which seemed to be so satisfactory all around as the recent retirement of the Hon. J. Israel Tarte from the Laurier ministry. The hon. gentleman himself declares that he is satisfied; the conservative press sees double cause for satisfaction in that the Laurier government has been weakened by the retirement of its strongest member; and that Mr. Tarte is in a better position than ever to advocate high tariff, and all other features of conservative policy; while those who believe in the liberal principles of low tariff, and no monopoly, cannot but feel relieved by the knowledge that the strongest influence in the cabinet for high tariff, extravagant expenditures, C. P. R. monopoly and all that has tended to prejudice the government in the eyes of its most pronounced supporters during its term of office has been withdrawn.

The late minister was a practical politician in the large and complete sense of the word. He acted on the belief that votes not principles win elections and that to serve people's interests was the surest way to secure their votes. It will be noticed that therefore all his principles were in support of the interests of the centres of population and the sections of those centres which were most certain to return political support direct and indirect for favors extended. He talked long and eloquently on the subject of transportation. No subject is of more general interest or of greater importance to the Dominion of Canada at large and particularly to its remote parts than that of transportation. But to him the improvement of transportation facilities meant only the deepening of the channel of the St. Lawrence to improve the port of Montreal, and such other harbor improvements scattered judiciously along the coast lines of the populous eastern provinces as would prevent a kick against the vast St. Lawrence expenditure. The fact that the Northwest and British Columbia were held back from development by lack of transportation facilities and by high railway rates did not concern the transportation question as he understood it. Indeed as the open and avowed champion of the C. P. R. his position was antagonistic to the improvement of transportation facilities in the west except in so far as the C. P. R. could be advantaged in the giving of them.

His attitude on the so-called transportation question was self-evident during the last two years of his term of office. But his tariff position only became evident in the campaign which was the cause of his retirement. In that campaign he set himself squarely against all tariff principles of the liberal party and was not backward in expressing his contempt for them and for the men who held them. By declaring squarely for a prohibitory tariff he put himself at the head of the manufacturers organization, prepared to support their most extravagant demands. There is no reason to believe that his present sentiments on the tariff question differ from what they have been for years. It is fair then to suppose that his has been the strong influence in the cabinet which prevented more radical reductions in many of the duties than have taken place, which failure to reduce has discredited the liberal government with many of their supporters and is unquestionably one great reason for their losing so many rural Ontario constituencies at the last general election. Liberals, who hold to liberal principles, can well spare that influence from the cabinet, even though the opposition should be strengthened in numbers thereby.

Not the least remarkable feature of the newspaper discussion of the situation is that the conservative press which ran the last general election simply on an anti-Tarte platform, now sees in the ex-minister the saviour of the industries of Canada and therefore of Canada itself.

The Melfort correspondent of the Prince Albert Times says: "The C. N. R. have an agent on the ground at Melfort township who has been selling lots to parties desirous of building a house. Prices, we hear, are running from \$75 to \$150, with building conditions attached." Melfort is in the Carrot River district east of Prince Albert and of the South Saskatchewan and is expected to be the terminus of the Prince Albert branch of the C.N.R. for the coming winter at least. There are people who doubt that the C. N. R. will get any nearer to Prince Albert for years.

## COUNCIL MEETING.

The council met in the council chamber Wednesday evening. There were present councillors Morris, Henry, Grierson, Goodridge and Heimick. Coun. Morris, being authorized to act for the mayor at this meeting, occupied the chair.

Henry-Goodridge.—That Coun. Morris be appointed acting mayor during the absence of Mayor Short. Carried.

The minutes of last meeting were read and adopted.

The following communications were read:

From commissioner of public works, Regina, re survey and improvements of St. Albert trail within town limits.

Henry-Heimick.—That the Northwest government, through engineer, Driscoll, be paid for the work done on this portion of the trail. Carried.

From secretary board of trade asking co-operation of council in trying to induce the C. N. R. to begin construction eastward from Edmonton next year.

Grierson-Henry.—That the council endorse the action of the board of trade. Carried.

From J. B. Lubbock, re expenses in connection with moving foundation of new stable on request of town to permit widening of street.

Goodridge-Grierson.—That this communication be laid on the table. Carried.

From T. A. Stephen asking if town is ready to offer a price on the old electric light site.

Goodridge-Henry.—That Mr. Stephen be notified the town is not ready to close for purchase of lot. Carried.

From Edmonton District Telephone Co., offering a rate of \$95 per year for the town's three commercial telephones.

Henry-Goodridge.—That account be paid and letter filed. Carried.

From club asking for privilege to build sidewalk crossing to rear of their premises.

Grierson-Henry.—That the request be granted. Carried.

From J. Brunelle re payment of account as acting constable.

Henry-Heimick.—That this communication be referred to license and police committee with power to act. Carried.

From St. Geo. Jellett re insurance on power house and machinery.

Henry-Goodridge.—That the letter be filed and Mr. Jellett be informed that insurance will be divided among agents in town.—Carried.

From Robt Engineering Company, re payment of machinery.

Henry-Goodridge.—That letter be filed and the company notified of acceptance of terms. Carried.

From R. Secord asking for extension of water pipe to connect with his new rink.

Goodridge-Henry.—That the communication be referred to resident engineer. Carried.

From Jackson & Grierson, asking for sewer and water pipe connection.

Goodridge-Henry.—That it be referred to engineer with recommendation to be granted. Carried.

From Engineer Chipman re contracts for pumping machinery.

Henry-Heimick.—That he be requested to forward machinery at once. Carried.

From general hospital in answer to town's inquiry re isolation building, stating that they were communicating with lead office in Montreal regarding the matter.

From public hospital stating they were unable to build an isolation hospital.

Henry-Goodridge.—That these letters be filed. Carried.

Several letters and telegrams from Robt Engineering Co. and Canadian General Electric Co., re shipping of machinery, etc.

Henry-Grierson.—That the action of the secretary regarding these be sanctioned and the communications filed. Carried.

A petition from residents of Queen's avenue asking for extension of sidewalk to the new school, it being favorably reported on by board of works committee.

Henry-Goodridge.—That their report be adopted. Carried.

A tender from Wills & Deyl for this work at 38 cents per foot for frontage and 47 for crossings.

Henry-Grierson.—That contract be accepted. Carried.

From Constable Radd stating that scavenger was off work owing to illness.

Grierson-Henry.—That the police be asked to notified the scavenger to appoint a man in his place. Carried.

An estimate from Mr. Gairdner for building brickwork of boilers and coal sheds at the new power house.

Goodridge-Henry.—That the estimate be referred to engineer with power to close contract, recommending its acceptance.

P. McNaughton was present and reported that the work of moving the machinery from the old electric light building to the new one was progressing favorably.

Goodridge-Henry.—That income taxes of J. S. Willmot, John Ross and J. Whitney, who left town early in the year, be written off. Carried.

The secretary reported that over \$20,000 taxes were already collected,

and that he had instructed police to collect poll tax.

Mr. Laycock, of the Canada General Electric Co., was present and addressed the council, on request, regarding lighting of the street, and renovating the lines. He advised the putting on of more men and putting the lines in better shape at once so as to obtain the best results from the new plant when it began running.

Plans requested previously from A. Driscoll, D. I. S., re grading of Ross hill and straightening of Jasper avenue east were submitted and examined and discussions on the proposed improvements took place. Further arrangements for carrying out the work will be made before next council meeting.

The following accounts were passed for payment:

Pay sheet, town officials,	\$533.33
W. T. Ashbridge, services,	10.00
Pay sheet, labor,	337.00
Pay sheet, street labor,	21.53

EDMONTON BULLETIN, OCT. 31st, 1902.

## THE DOG STILL IN THE MANGER

A copy of the following letter has been transmitted from the railway department at Ottawa to Frank Oliver, M. P. As it relates to a matter of general public interest it is given to the public in full:

Toronto, Oct. 6th, 1902.  
Collingwood Schreiber, Esq.,  
Secretary Railway Committee,  
Ottawa, Ont.

Sir:—We have received advice from the west that the local member for Alberta district has communicated with you in reference to the corporation authorized to be made between the Edmonton, Yukon & Pacific Railway Company with the Calgary & Edmonton Railway Company, near Strathcona. As you are aware, an order was made approving of the connection between the two railways. The Edmonton, Yukon & Pacific Railway Company have from time to time been requested to submit an agreement providing for the management of the junction and the interchange of traffic. An agreement was submitted, which provided that the Calgary & Edmonton should operate the line, but such proposition was declined. We understand representatives of the Edmonton, Yukon & Pacific are now negotiating in the west in reference to the terms of an agreement.

We do not understand why the local member has intervened, but we have heard that such is the case, we think it only proper that we should advise you of the way in which the matter stands. The Calgary & Edmonton Railway Company are, and always have been, ready to facilitate any reasonable arrangements and it is not their fault that a satisfactory arrangement has not been arrived at some months ago.

We have the honor to be, Sir,  
Your obedient servants,  
KINGSMILL, HELLMUTH,  
SAUNDERS & TORRENCE.

As will be noticed the date of the foregoing precious epistle is October 6th, and during the very time that the C. & E. and C. P. R. were forcibly preventing the junction from being made. It will also be noticed that the Edmonton, Yukon & Pacific Company, otherwise the Canadian Northern, proposed an agreement whereby the Calgary & Edmonton company should operate the Edmonton spur and that the proposal was refused. Apparently further offers of the Edmonton, Yukon & Pacific Company have also been refused; and no doubt will be as long as the Calgary & Edmonton Company can refuse and still keep within the limit of the law. The Canadian Northern have "one everything that they can do to secure the operation of the railway. They have built the road, they have secured an order for the junction and despite the forcible opposition of the C. P. R. have put in the junction. They have sent up an engine and train at great expense to operate the line. All they ask is that traffic intended for Edmonton shall be handed over to them either at the junction or at Strathcona, station, whichever will best suit the convenience of the C. P. R. and still that is refused.

Now that the Canadian Northern have fulfilled the letter of the agreement under which they acquired the Edmonton, Yukon & Pacific charter from the town of Edmonton, there is something more involved than mere crossing between the two companies. If the public have any rights guarded by legislation and administered by a responsible government, here is where they come in. And for the information of all and sundry, including Messrs. Kingsmill, Hellmuth, Saunders & Torrence, this is "why the local member has intervened."

Whether his intervention will have any beneficial result or not is another matter. But a company which stands as a debtor to the people of Canada for double the cost of its railway is hardly in a good position to resent "intervention" in its affairs by those who are charged with the care of the public interest, especially when the affair is an attempt to hold up another company and block the extension of railway facilities for the benefit of the public in this part of the country.

If the department of railways is administered in the interests of the public it is high time it was heard from effectively in the matter of this connection. If it is not so heard from the only conclusion that can be reached is that the interests and even the whims of the C. P. R. are its special care, without regard to the public interest.

Regina Leader: The dread diphtheria claimed still another victim last Saturday and left one more sorrowing home in town. The latest one to succumb to the disease was Mary Berneice, the bright and winsome youngest daughter of Mr. and Mrs. R. H. Williams. The funeral which was held the following afternoon was very largely attended.

## What the Cotton Mills Want.

Montreal, Oct. 15.—"The conditions in the Canadian cotton trade are poor and more protection must be given to the manufacturers. An increase of 10 per cent upon the present tariff is necessary, and I think the government will do something toward raising the customs duty," said A. F. Gault, president of the Dominion Cotton Company, who returned to Montreal after an extended sojourn in England and Scotland. Mr. Gault said that he was not yet fully posted upon the prevailing situation, but readily admitted that matters.

"There is not a mill in Canada making a dollar; indeed, if most of them are holding their own they are doing well. The present tariff on cotton goods is 25 per cent and the preferential tariff, with Great Britain reduces this to 16-23 per cent, which is lower than the former Cartwright tariff of 17-22 per cent. The result is that British manufacturers are able to come into our market and undersell Canadian operators."

"How is the British manufacturer able to sell his goods at a lower price than the Canadian manufacturer?" "Because his goods cost him less," said Mr. Gault, in reply. "For instance, the Canadian mill has cost more than the British factories. On its machinery alone the Canadian operator has paid duty of 35 per cent in addition to freight and other expenses. Wages are higher in Canada; managers' salaries are greater; in short, the whole cost of production is greater than in Great Britain. Another factor that assists the British manufacturer to make his goods cheaply is that certain lines are specialized and portions of the finished articles are made in various mills, while in Canada the whole process from raw cotton to the finished material takes place under the one roof.

"Then again, the British manufacturer has the world for his market and sells according to the strength of the market, obtaining varying prices, and probably obtaining 5 per cent more for his goods in Canada.

"He therefore manufactures on a larger scale. We have from 8,000 to 10,000 patterns of prints and make perhaps 50 pieces of cloth. The British maker will manufacture 10,000 pieces of one pattern, and an extraordinary demand will induce the Canadian manufacturer to make 100 pieces.

"Yes, conditions are bad and there is no money in the business to-day. Indeed, they were poor under the old tariff and have been intensified by the present one, so that for a year not a Canadian mill has made a dollar."

## The Diphtheria.

Regina Leader: There would seem to be a call for scathing criticism. We have law and regulations. We have health officer. We have doctors, upon each of whom the law imposes duties in return for powers and privileges conferred. And with all these the town has not been free from diphtheria for seven months. The fact is scandalous. Who or what are to blame? They are to blame who have failed to obey the quarantine regulations. These are an inconvenience to be sure. But what does the inconvenience amount to weighed against the calamity which deprives one father and mother of four children, their all "The West" who weeks ago referred to the jealousies existing amongst Regina's doctors. We fear the reference was justified. The animosities entertained by our doctors, seemingly each against every other, are little short of scandalous. They cannot be deprived of their right to their quarrels, we suppose, yet they certainly have no right to permit their quarrels to jeopardize the public interest and the public health. Even in face of recent lessons the quarantine regulations are flagrantly disregarded. The situation calls for no alarm. Ninety-five per cent of the cases are of mild type. But the situation calls for rigid enforcement of regulation. With proper enforcement the disease would have disappeared five months ago, and the recent deplorable losses would not have been incurred.

## Oil and Coal Scarce in Regina.

For the past week Regina has suffered from a coal oil famine and to-day not a gallon can be had. The difficulty has been in securing transportation facilities from Fort William. Supt. Brown of the C.P.R., spent yesterday in town looking into freight matters here and immediately on his arrival Mr. Morrison informed him of the oil situation. Preference orders have been issued for the oil now en route and it will be rushed forward without delay. As to the complaint of the coal company at Lethbridge that they have not been supplied with half enough cars, Supt. Brown said that Mr. Leonard had ordered 75 cars to be delivered at these mines daily and that every effort was being made to furnish sufficient cars and on some days 40 cars, and on other days 60 cars were supplied at the mines. Mr. Brown remained here last night in order to give his personal attention to these matters.

## London Fur Sales.

Report of C. M. Lempson & Co's sale of furs on the 21st and 22nd inst.:  
Beaver 15 per cent lower than last January.

Bear, grizzly, 20 per cent, lower than last March.  
Wolf, 10 per cent higher than last March.  
Wolverine, same as last March.  
Badger, 50 per cent higher than last March.

## NOTICE TO CREDITORS

Of Noah Ziegler, late of Spruce Grove, Alberta, Deceased.  
Notice is hereby given pursuant to the order of the Honorable Mr. Justice Scott, dated at Edmonton the 30th day of September, A. D. 1902, that the creditors and others having claims against the estate of the above named Noah Ziegler, deceased, are to send in their names and addresses and full particulars of their claims together with a statement of the securities, if any, held by them, verifying same by stamp, to the undersigned, at the offices of their Advocates, if any, to the "National Trust Company, Limited," Edmonton, Administrator of the estate of the said deceased, on or before the first day of December A. D. 1902.

And take notice that after the expiration of the time aforesaid the said administrator will be at liberty to distribute the assets of the said deceased or any part thereof amongst the parties entitled thereto, having regard only to the claims of which the said administrator then has notice.

Dated at Edmonton, this 30th day of September, A. D. 1902.

MACDONALD & GRIESBACH,  
Advocates for the Administrator.

## THE LOCAL IMPROVEMENT ORDINANCE

Notice is hereby given, that, under the provisions of Section 60 of The Local Improvement Ordinance, the Honorable Mr. Justice Scott has appointed Thursday, the 30th day of November, 1902, at ten o'clock a. m. at the Court Room in Edmonton for the holding of a Court for confirmation of the returns made under the provisions of Section 65 of The Local Improvement Ordinance in respect of the following Local Improvement Districts, to-wit:

Local Improvement Districts Nos. 2, 17, 21, 22, 24, 30, 31, 35, 38, 42, 44, 45, 48, 52, 55, 69, 73, 159, 226, 228, 231, 240, 255, 401, 403, 405, 407, 422, 424, 434, 445, 451, 458 and 460.

Dated at Regina this 3rd day of September, 1902.

J. S. DENNIS,  
Deputy Commissioner of  
Public Works.

INSURANCE.

## ADDRESS TO PROF. ROBERTSON.

The following address was presented to Prof. Jas. W. Robertson, of the department of agriculture, Ottawa, by the Calgary board of trade, during his recent visit on October 25th. The address was signed by W. H. Cushing, president of the board;

Calgary, 25th October, 1902.  
To Professor J. W. Robertson,  
Commissioner of Agriculture and  
Dairying, Ottawa.

Sir—The Calgary board of trade desires to welcome you to the city of Calgary and to take this opportunity to publicly recognize the value of your services in the extension of markets for Canadian products and your educational work in agriculture and dairying which has resulted in the magnificent increase of our exports to foreign markets from year to year.

Referring to Territorial matters we can look back to conditions previous to 1897 and can appreciate the enormous advantage that government supervision has been to the districts where creameries have been established, and we would venture to express the hope that your department will not cease the good work which has been of so much value.

As you are aware the largest cereal product of Alberta is the oat crop and we wish to express what a great benefit you conferred on the country by your efforts in finding a new market for the farmer last year. The outlook for this present year is that like efforts must be made to handle the large crop now being stored and we hope that this progressive policy will be continued.

During the past two years your department has instituted the purebred cattle sales for the Territories, at Calgary, and the success of the sales in May last must have far exceeded your expectations; the value of such organized work is incalculable.

You will meet to-day instructor and pupils of the Manual Training School and we cannot too strongly express our appreciation of the value of such special training for the young in all the departments.

The professor thanked the board for its address and said that after visiting many parts of the country he found Alberta making as good progress as any other part, and quite able to sustain a great many people in a very good way. He knew its agricultural possibilities, and he might say that the shipments of oats that were made by him from here were as fine as any he had ever seen; but people should not ship oats but keep them for feed and for raising pigs, which was one of the most profitable industries of the day. He was very glad to hear a new packing house was to be put up here. He might tell them they had started a chicken fattening ranch in Calgary, where a chicken would be made to weigh two pounds more in four weeks. One fat chicken in this way was actually equal to three ordinary ones. Last year Canada shipped fattened chickens of the value of \$200,000. As to creameries they were progressing and this year there would be double the quantity made in 1897.

## MOOSE JAW CROPS.

Free Press; Moose Jaw, N. W. T., Oct. 21.—Threshing is well started at that point. One hundred and thirty thousand bushels of wheat have been marketed. The elevators are nearly full and the local mill has forty-five thousand bushels stored. About twenty-five thousand bushels have been shipped. Cows are scarce. The average yield is thirty to thirty-five bushels. Good farms have yielded forty and upwards. The grade is usually No. 1 hard.

Oats are running ninety bushels and upwards. Threshing will continue well on to the New Year.

## Lord Kitchener for India.

London, Oct. 17.—Lord Kitchener started to-day for India, to assume command of the British forces there. He goes by way of Paris and will visit Khartoum. Absolute secrecy was maintained regarding all the arrangements for his departure, so he got away unnoticed.

Nor-West Farmer; R. A. Peterson, Strathcona, got 2 lbs. of seed potatoes, "Early White Prize" variety, from Ottawa last spring. He has repaid from the 28 hills in which they were planted 89 lbs. of well grown tubers.

Nor-West Farmer; Alameda seems a pretty live style of district with a prospect of keeping well ahead in the race of progress. During the present season the following machinery has been sold by Alameda dealers: Threshing outfits, 16; binders, 71; mowers, 50; rakes, 45; The homestead entries exceeded the number at any other office in the Territories by a wide margin. Here are the figures; April, 30; May, 408; June, 510; July, 487; August, 292; September, 146; total for 6 months, 2,204.

Nor-West Farmer; The Canadian Northern is doing its level best to keep up its share of the export traffic. It has now sent through Winnipeg 1,200 cars, of which 804 cars, equal to 360,000 bushels, have gone into Port Arthur. They have also shipped out 40 of the 100 cars ordered by Gordon, Innes & Pares to carry beef cattle from Grand View to Boston. Monday morning 850 head crossed the line at Pembina and will make the trip from Grand View to St. Paul via Northern Pacific without unloading.

## MORINVILLE.

The Morinville mill will commence grinding on Monday. Wheat has been bought for cash for some time past and a good stock is now on hand. The sample is excellent, and it is estimated that there is enough in the district to keep the mill running continuously all season. This will be of great advantage to the settlers of Morinville and adjoining settlements as it will do away with the long haul of their wheat to town, and will give them cheap bran and shorts for their stock. This mill is considered to be in an especially good position to supply flour to the Athabasca Landing and all points reached from there, as it is the nearest mill to the Landing and is in the centre of a settlement where freighters can be readily procured. The capacity of the mill is 50 barrels a day. The head office of the company is in Edmonton.

## CHIPWEYAN.

There is a plague of measles at Chipewyan. There have been eighteen deaths, mostly young children.

We are having very fine weather here; and geese are numerous.

Colin Fraser and John Borwick recently went out shooting geese. We all know that Colin is a good shot; but this time he was beaten by a farmer.

John Borwick, late of Whitford, is trading for Colin Fraser at Smith Landing.

## FRANK.

Sentinel.  
This issue of the Frank Sentinel is the initial one of its second year.

Charles Reed, Frank's new druggist, arrived in town last night.

The townsie company is now prepared to furnish deeds to purchasers of lots in the Frank townsie.

A new and substantial bridge has been built over the river between McLaren's mill and Blairmore.

The Alberta Mercantile Co. have had a new warehouse erected on the C. P. R. right-of-way near the switch.

Thirteen kilns above town are doing a rushing business these days. The Pelletier kilns turn out three carloads per week, while the Alberta Lime Co. is loading about one and a half cars per week.

The government survey party, under charge of J. Loneragan, which is now working up the South Fork, is expected here shortly to continue the subdividing of the coal lands in the Pass.

Landlord R. Steeves, of the Imperial Hotel, has had a well put down on this property and to-day has the only well in Frank. Two fine springs were tapped by it and an abundance of pure water is now assured.

## MACLEOD.

Gazette, Oct. 27.

A bridge gang is at work this week taking the old bridge apart and making arrangements to erect a temporary one over the Old Man's river, which will be used until the government can get the necessary steel for a permanent structure.

A bunch of 300 head of cattle mostly bearing the brand of the Montana Circle Ranch Co., said to have strayed to this side of the line, after being gathered up to drive back to the States, were held by a Canadian customs officer for duty. We understand that this has been paid, and the cattle will now remain this side of the line.

## HOTEL ARRIVALS.

Monday.

Alberta—W. J. Rapt, J. W. Cahill, E. J. Hinely, Winnipeg; M. E. O'Brien, E. T. Jacobs, H. A. Johnson, and son, Wetaskiwin; F. H. Thayer, F. E. Johnston, W. McConnell, Toronto; W. Bremner, Montreal; Lawrence Adams, Edmonton; A. English, C. G. Cunningham, Greenwood, B. C.

Queen's—J. Griffin, Strathcona; J. M. Moran, Mr. Leppage, Mrs. R. Leppage, H. Carscaddon, C. P. Stewart, Fort Saskatchewan; F. Johnston, Naino; H. S. Bowden, Calgary; R. H. Sargent, Robberville, Ont.; W. B. Riddicombe, New Hamburg, Ont.; A. P. Hendon, Devil's Lake, N. D.; Jos. Quinlan, Wetaskiwin; W. M. Bryant and family, Herrick, Ill.; Alex. Swanson, Lacombe; Geo. Dorland, Horse Hills; E. Flynn, Camilla; S. A. Webb.

Grandview—E. D. Angell, Fargo, N. D.; W. J. Pearce, Agricola.

Victoria—A. T. MacGorman, town; A. Charter, Morinville.

## Canadian Remounts.

London, Oct. 27.—The report on the union of Canada is at present unable to supply a large number of horses. The report recommends that a stimulus be given to this trade in the colony by a steady and permanent demand for army horses and the introduction of suitably selected stallions.

Regina Leader; G. H. V. Bulsey received a letter on Monday from Premier Haultain which conveyed the intelligence that he had been taken ill and his doctor had forbidden him from sailing on the 6th inst., as he had intended. The premier stated, however, that he had booked a passage in the Saxonia of the Cunard line sailing on the 18th inst. for New York.

Nor-West Farmer; An Indiana man has discovered the secret of making malleable glass. This is a great step in advance, for glass vessels of all kinds that will not break will be a great blessing. One of the inventor's feats was to drive a nail with a lamp chimney.

Nor-West Farmer; R. G. Nordal, a farmer at Grund, had a field of oats considerably shaken out last fall. When he came to plow it as summer fallow he found a pretty fair volunteer crop which he allowed to grow. He has just threshed 57 bushels to the acre from that field.

Nor-West Farmer; Reports from Ontario go to show that potatoes will be scarce this year, owing to the prevalence of potato blight. The moist conditions of the past summer have been most favorable to the development of blight.

## Farm for Sale—A Bargain.

On Battle River, improved farm of 480 acres, the whole of which can be cultivated, 160 acres under cultivation now. Large house 42x31, 2 eight horse stables, granary capable of holding 6000 bushels of oats, running spring. Big timber along river. For terms apply to

# BOARD OF TRADE MEETING.

A meeting of the Edmonton Board of Trade was held in the Gariepy block Tuesday forenoon. There were present: K. W. MacKenzie, president; F. P. Timm, secretary; J. H. Morris, T. W. Lines, C. W. Satchell, G. Gilmer, J. W. Mercer, F. Richardson, A. H. Campbell, John Ross, Jas. Walsh and Engineer Pace, of the C. N. R.

Communications regarding the securing of a market in Australia for Alberta oats were read from C. W. Peterson, deputy minister of agriculture, Regina; W. R. McInnis, assistant freight traffic manager of the C. P. R., and Prof. Robertson, of Ottawa. All reports indicate that there is a good market in Australia for Alberta oats but the trouble lies in the grading and transportation. Australia buys from sample. It would be necessary then for Alberta dealers to submit samples of this year's crop and be prepared to fill contracts on such qualities. On receipt of the sample an offer would be made by the buyers in Australia. This makes business almost impossible unless the oats could be graded in Alberta; samples of the grades sent, and contracts made accordingly. Before leaving Alberta the oats would be subjected to government inspection and if passed by the inspector as of the grade contracted for, there could be no refusal when they arrived in Australia. Otherwise without the certificate of inspection a dealer would have to wait till his oats reached their destination to know if they were satisfactory or not. The great need for an immediate appointment of an inspector for Alberta was pointed out and on motion of Mercer-Richmond the following resolution was adopted:

"That the Dominion government be asked to appoint a resident inspector for Alberta grains, and that the co-operation of other boards of trade in Alberta be asked to secure this end."

A. B. Campbell, of the Dowling Milling Co., reported that, owing to a landslide on Dowling's Hill, that road was impassable, cutting off the route from Clover Bar to Edmonton. He was authorized by the board to have the hill repaired immediately and Mr. Rutherford, M. L. A., for Strathcona district, would be requested to refund the cost, if not the board would guarantee the expense.

The possibility of inducing MacKenzie & Mann to commence at Edmonton building eastward next spring was discussed with Engineer Pace. On motion of Strathcona-Campbell, the president, secretary, and J. H. Morris were appointed a committee to draft a letter to MacKenzie & Mann regarding the matter, and to ask the co-operation and assistance of the town council, and board of trade and town council of Strathcona, towards securing the desired end.

## Spreading Knowledge of Canada.

The Bulletin has received a copy of No. 888 of volume XXXV, of "The Teachers Aid" published in London, England, accompanied by a supplement. The purpose of the supplement is set forth as follows:

"We have great pleasure in publishing in this special supplement a list of the names of successful pupils in upwards of 1,000 schools in the United Kingdom who have carried off the Canadian government prize medal, offered for the best essay on Canada for two years in succession by the Hon. Clifford Sifton, the minister of the interior of the Dominion. It would be difficult to imagine a more original, attractive, and practical plan than that in question for stimulating among the young the study of the geography and resources of Canada, which is at once the most important and nearest of the great self-governing colonies of the Empire."

The whole of the circumstances surrounding the Hon. Clifford Sifton's offer are such that reflect the greatest credit on his patriotism and practical common sense. It should be stated that in addition to the offer of the medals, Mr. Sifton took steps to provide, free of charge, for the competing scholars, tens of thousands of really excellent Canadian reader and atlas, which he had had specially prepared for the purpose by a prominent Canadian educationalist, the Rev. E. R. Peacock, of Upper Canada College, Toronto. By these means an accurate and comprehensive presentation of Canada of today was within reach of every scholar and one, moreover, far more interesting and vital than it would have been possible to secure had the current readers published in this country alone been available.

According to information supplied through the courtesy of Mr. W. T. R. Preston, the Canadian Immigration Commissioner, 17 Victoria Street, London, S. W., it appears that from thirty-five to forty thousand school children in the United Kingdom entered for this competition this year, and only were a selection of these essays from each school were sent up to the Canadian government office in London, to be dealt with by specially appointed examiners, who adjudged a medal to the best effort for each school. The standard of work in the papers submitted has varied greatly is only natural, but Mr. Preston informs us that on the whole the results of the competition, in his opinion, are more than satisfactory. Very much of the success of this competition, and of the quality of the work produced has been undoubtedly due to the school teachers, who took the liveliest interest in the proposed work from the moment it was mooted, and devoted unusual efforts for months to secure creditable results. Mr. Preston regards this feature of the competition as one of the most encouraging and healthful manifestations of the new awakening which is being noticed, and which is finding expression perhaps somewhat tardily, in a growing appreciation of the importance and possibilities of Canada.

# SECRET SOCIETIES OF EDMONTON.

Edmonton has a good array of strong and flourishing secret societies. Branches of the leading orders are established here and have a live and growing membership. Amongst the great numbers of visitors to our town from various parts of the world are many members of sister societies who would be glad to find some of their brethren in the craft located here. Below is published a list of the various societies, with names of officers, dates and places of meeting.

**Masons.**  
North Star Chapter Royal Arch; Masons No. 118, G. R. C.; 1st prin. T. F. English; Scribe, E. Geo. T. Braeg. Meets 2nd Tuesday in each month at 8 p. m. in Masonic Hall, Walker block, Edmonton.

Edmonton Lodge No. 53, A. F. & A. M.; W. M., K. W. MacKenzie; secretary, John W. Morris. Meets 3rd Thursday in each month at 8 p. m. in Masonic Hall, Walker block.

Jasper Lodge No. 78, A. F. & A. M.; W. M., G. H. Graydon; secretary, Geo. Stevenson. Meets 2nd Monday in each month at 8 p. m. in Masonic Hall, Walker's block.

**Foresters.**  
Ancient Order of Foresters; Court Beaver House, No. 7866; Chief Ranger, W. A. Grishbach; Sub. Chief Ranger, Cecil Sutherland; Secretary, R. Kenneth; Treasurer, H. Aldridge. Meets 1st and 3rd Tuesdays in each month in Hourston's Hall.

Independent Order of Foresters, Court Edmonton, No. 1346; Chief Ranger, Philip Umbach; Recording Secretary, W. J. Hunter; Treasurer, John Milner; Financial Secretary, J. C. Johnston. Meets 4th Tuesday in each month.

**The Woodmen of the World;**  
Edmonton Camp, No. 155; Clerk, R. Kenneth; Advisory Lieut., M. H. Dewar. Meets 2nd and 4th Tuesdays in each month in Hourston's Hall.

Independent Order of Oddfellows, Friendship Lodge No. 7; Noble Grand, T. Lander; Vice Noble Grand, A. Cristall; Secretary, W. M. Parslow; Treasurer, Thos. Hourston. Meets every Wednesday evening in Hourston's Hall.

**Workmen.**  
Edmonton Lodge No. 23, A. G. U. W.; Master, C. Gallagher; Recorder, Jas. McDonald; Meets 2nd and 4th Fridays in each month in Hourston's Hall.

**Knights of Pythias;**  
C. R. H. Hockley; D. C. C., John Bown; K. of R., N. S. Geo. Bossange. Meets in Hourston's Hall.

K. O. T. M., No. 6; Commander, R. Hockley; Record and Finance Keeper, H. Christman. Meets in Hourston's Hall.

**St. Andrew's Society;**  
President, Geo. J. Kinnaid; 1st Vice-President, E. T. Fisher; 2nd Vice-President, Dr. A. Whitehead; Secretary, Thos. Hourston; Chaplain, Rev. D. G. McQueen; Physician, Dr. W. M. Mackay.

C. M. B. A.;  
President, J. H. Gieard; 1st Vice-President, B. G. Silver; 2nd Vice-President, J. M. Pomerleau; Recording Secretary, A. E. Voyer; Financial Secretary, J. H. Gariepy; Treasurer, Joe. Chenier; Marshall, N. D. Beck; Guard, D. M. McNamara; Chancellor, J. H. Gariepy; Trustees, Messrs. Gariepy, Iye, Leclerc, Gallagher, Larue. Meets 1st and 4th Tuesday evening in each month in Gariepy block.

**St. Jean Baptiste Society;**  
President, O. Tessier; Vice-President, J. M. Pomerleau; 2nd Vice-President, J. Brunelle; Secretary, J. T. Labossionette; Treasurer, P. E. Lessard; Committee, J. H. Gariepy, H. Hieard, S. Larue, J. Bideaux, M. Bertrand. Meetings held in the Gariepy block.

## L'Alliance Nationale.

President, Geo. Roy; Vice-President, G. Lettier; Secretary, O. Tessier; Meets the last Wednesday of each month in the Gariepy block.

## THE ROAD TO WHITFORD.

Editor Bulletin.  
Sir.—Would you kindly spare me a corner of your paper to discuss Mr. Driscoll's remarks on the road between Whitford and Edmonton recently appearing in the Bulletin.

He says Borwick's slough is to be improved at an early date by drainage or survey. We agree. We have got our report or it would have been seen by it that of the road surveyed between Borwick's and Sanguet, Whitford's west corner section 36-56-14, end of present surveyed road three miles, and two and a half miles of the said three miles is present under from two to four feet of water. How is an overseer to put work on such a road.

Our report asked for a new survey leaving Borwick's to pass through sections 33, 34 and 35, on to the township line between 56 and 57, again through 35 to the end of the present survey, then on through section 36-56-14, continuing on east one mile through Mr. Monkman's and A. Whitford's. This proposed survey, I think, Mr. Driscoll travelled over while here. Had he consulted any old settler they would have been glad to show him the old survey and the one now asked for. We understand that Mr. Driscoll left word for the overseer to go on with his statute labor where he wanted the roads, and would come and locate it afterwards. It is our opinion an overseer has no power to spend money on unsurveyed roads.

A. SETTLER.

# PONOKA.

Herald, Oct. 24.  
Indications are now that Ponoka will have a member of the police here soon. Major Belcher was here the fore part of the week making inquiries regarding a suitable place for use as a barracks.

Another example of the productiveness of Alberta's climate in the animal world is given us by J. W. Christie, who has four calves from one cow all born inside of a twelvemonth. The quartet consists of two pairs of twins and all four are large healthy calves and may be seen at Mr. Christie's fine farm southeast of Ponoka.

The old church property, consisting of two lots and log building, of the Presbyterian church on Smith avenue was purchased this week by Henry Dick for a consideration of \$450. This is the first step by the association toward the erection of a new church edifice which they will begin in the early spring on their site near the school house.

Fall plowing is the order of the day and the farmers are very busy. A large acreage will be ready for crop next spring. Many farmers have from thirty to sixty acres plowed.

E. Ingham was in town Tuesday regarding some fine cabbages of which he has nearly 3,000 heads. Among the lot was one head weighing sixteen pounds, while others were nearly as large and many of them are still larger ones in his garden.

F. W. Tracy, late of Edmonton, now has charge of the tinning department of the Allan hardware.

Book to locate have their new planing in operation now and are busy planing and matching lumber at their mill.

Robert Bunn does not claim to be much of a farmer, devoting the most of his time to carpentering, but last week he threshed the barley he grew on five acres of land and received 30 bushels of first class grain.

E. G. Grant spent the past week in Edmonton.

Trimble Bros. have taken the contract for grading and filling in Herchermer street and have already done a large part of the work. With this street graded a very marked improvement will be made in the central portion of the village and property on that street will in consequence be considerably enhanced in value. The work is being done by private subscriptions.

The little fifteen-month-old girl of Mr. and Mrs. J. E. Aylwin had the misfortune to become severely scalded last Sunday afternoon. The little one while playing around the stove in some way tipped the coffee pot upon her, her burning hair in the breast and over the body. The little one's suffering was ended only in death, which came as a relief on Tuesday. The funeral occurred at Forest Home cemetery Wednesday forenoon.

Ernest Cashel who was arrested here last week and who jumped from the train near Red Deer and thus escaped from the chief of police of Calgary, has again been heard of but not yet captured. Last Friday a boy of his description stopped at the home of Amassy Driggs, about half way between here and Lacombe. He was without coat and vest and told Mr. Driggs that his pony had broken away from him with his coat and vest, and all his money tied to the saddle, and asked Mr. Driggs for assistance. The good nature and generosity of Mr. Driggs at once prompted him to fit the lad out with clothing and place in his charge his favorite saddle pony and saddle which the boy agreed to return the next day—Saturday. Mr. Driggs waited until Monday when he notified the authorities. From the description given it was almost certain he was the same man who had escaped on Wednesday. The police were here Monday and Tuesday making inquiries. It was learned that the lad had been at the residence of John Coleman last Friday evening. So far, however, the authorities have been unable to locate him.

## The Diphtheria.

Regina Leader, Oct. 23.—The recent considerable increase in the number of local diphtheria cases has evoked some agitation. Whether effort should now be directed towards allaying or further provoking the agitation is a question not easy to answer. While there are perhaps no good grounds for general alarm, yet the consequences of a general alarm are not the consequences most to be feared. Had there been more alarm some months ago there would be no diphtheria now. Too little alarm and the grossest carelessness have brought upon the town the present conditions, a result contributed to also in some degree by the almost disgraceful lack of co-operation on the part of our medical men.

## The Alberta Land Company

Has 20,000 acres of as fine land as can be selected in Beaver Lake, Vermillion and Birch Lake country.

These lands are adapted to both raising grain and stock. There are three lines of proposed Railroads running through this part of the country. These lands can never be bought cheaper than now. We are selling every day and they are not going to last long. Improve the opportunity and place your money where you are sure of securing a good profit by the investment.

Many invest in Mining, some in Oil, some in Bonds; only a few reach the goal; this rest find their hard earned money gone with only a piece of nice paper to tell the story. Why not buy a piece of land one-half mile ☐ to look at and see it increase from year to year in value until it makes you and yours a nice little fortune? It will surely come. It is only a question of time.

We solicit your trade. Call or write and get maps and information of these cheap lands.

## TEACHERS' CONVENTION.

The Northern Alberta Teachers' Association held their annual fall convention Monday and Tuesday in Grand Forks, Strathcona. The weather was beautiful, the roads good, and there was a large attendance of enthusiastic teachers.

Proceedings commenced at 10 a.m., with President Ramsay in the chair. The large room was tastefully decorated and looked quite attractive. The president delivered an address of welcome to the visiting teachers, discussing in the course of his remarks, from the standpoint of the child, the four great requirements of child character in the school room: 1st, regularity; 2nd, punctuality; 3rd, industry; 4th, industry. He dwelt especially on co-operation between teachers and pupils, and that true ideals of child should be taught.

A discussion of business affairs then occupied the attention of the convention for a few minutes.

The program was then begun by a paper on school-room decoration, read by Miss Currie, Strathcona. The following points were brought out: Ornamentation should be subservient to utility; it should be made of pictures, stencils, and other things. Plants should be brought into the room. The teacher was the mainspring of the room. As he is his pupils are. Enthusiasm is contagious and should break out in the school room.

A discussion of the paper followed.

Miss Jeykell then taught a literature lesson to a junior standard III class, the subject being "Abou Ben Adam." She dwelt largely on the picture presented by the poem.

A lengthy discussion of the lesson followed, the method of teaching it being highly approved of.

In the afternoon Inspector Bryan discussed at some length the subject "Successful Work." Much valuable information regarding school requirements at large was given. In giving a school grant Mr. Bryan gave the following schedule on which an inspector bases his estimates: 1, grounds, 10 per cent; 2, buildings, 10 per cent; 3, equipment, 20 per cent; 4, pupils and teachers, 60 per cent.

The following suggestions were given in reference to these points. As to the grounds, a fence must be provided, but trees and flowers could be kept. A kind of fence was better than a fence but a close board fence on one side and a picket fence in front was recommended. The grounds should be level and clear of scrub, and the buildings daily inspected by the teacher.

The school building should be commodious, 15 square feet of floor space to each child, 10 square feet of air space being provided for each child. Proper ventilation and light are necessary. A thermometer was indispensable and the temperature of the room required to be kept at 67 degrees. A log building kept clean and neat will rank higher for grant purposes than a brick school kept so. At least 60 square feet of black board space was necessary, and should be slate. Single desks are preferable. Cupboards, shelves and seats should be daily inspected by the teacher, who is responsible for their condition.

The equipments necessary are, a globe, numerical frame, dictionary, map of the world, North America and Canada. In answer to a question as to what was the largest grant paid on inspection, Mr. Bryan stated that it was \$150. One-half of the grant must be expended on the school library.

As to pupils and teachers, the pupils must never be allowed to help one another at their seats. The result was worse than useless. Order was the first law in the school room. Teachers of work did not receive the attention due it. Regular methods of calling and dismissing pupils were advisable. The development of the mental power of the pupil rests with the teacher.

Miss Asher then taught a lesson on nature study. The subject was "Structure of the orange and the relation of its several parts to its uses." The lesson demonstrated the great interest which can be aroused in the pupils, leading them to make examinations of their own.

This concluded Monday's program. In the evening a grand reception tendered by the Strathcona teachers was held in the school. It was a brilliant success. The rooms were very tastefully decorated and an elaborate program provided, including five prominent. The art gallery was then visited. It was unique and cleverly arranged and produced much mirth. Various games, including crockle, ping-pong, target balls, target practice, were indulged in. Refreshments, provided by the trustees' wives were served in the upper story, after which games were again indulged in till a late hour. No pains were spared by the Strathcona teachers to give their visitors a royal reception and much credit is due them for the success of their great preparation.

Tuesday morning the program was continued. Mr. Moran read a paper on "True Aims of Education." It showed deep study and a true idea of the subject, and called upon teachers to follow the example of the Great Teacher.

An exceedingly interesting and instructive music lesson was then given by Miss K. Chegwinn and discussions followed.

Business matters were again discussed and reports of the standing committees heard.

In the afternoon Mr. H. B. Anderson taught a geography lesson to a standard II class. The subject was "The Valley." The lesson was a model one and the subject was exceedingly well developed.

A short discussion on school law and programme of studies followed. The following officers for the new year were then elected.

President, D. C. McEachern.  
Vice-presidents, Miss Jockell, Miss Young, Harry Van Allen, W. J. Hobbs.

Secretary-treasurer, Miss Battrick.

The following are the names of the teachers in attendance. The name of the school and the post office address of each teacher as far as learned, is also given:

### SUPREME COURT.

The criminal docket was taken up Tuesday morning. The first case was that of H. Vizna, of Horse Hills, charged with stealing a belt from John I. Mills' store last July. This proved to be a case of mistaken identity. Mr. Vizna not being the man wanted. The charge was immediately withdrawn.

Philip Wagner, charged with misappropriating money sent in his care from Germany to Ewan Gach, Galician, then appeared for second trial. Jury were sworn in consisting of H. Sigler (foreman), W. R. Richardson, O. Tessier, A. E. Potter, A. E. Voyer and John F. Forbes. The case occupied the attention of the court Wednesday and Thursday. J. C. F. Brown and C. W. Cross appeared for the plaintiff and C. de W. Macdonald for the crown.

It appears that Wagner, who has a tailor shop in town, had been doing considerable work for the Galicians in the way of communications and adjustment of business transactions, since he understood their language and was also posted in the English language and our methods of business. On June 5th, 1900, Ewan Gach, the plaintiff, brought him 1810 gulden, Austrian money, to have it sent to Hamburg, Germany, and then exchanged for Canadian money. This amount was put in two envelopes, addressed to Mr. Moretz, money exchanger at Hamburg and registered at Edmonton. A third letter was sent asking to have it exchanged and returned as desired.

The reply, inclosing the Canadian money, was supposed to have reached Edmonton on July 13th, addressed in care of Wagner, who it is claimed received it from the post office and failed to turn it over to Gach.

Gach, not receiving his money when he thought it due, wrote the exchanger and received a reply dated 29th Aug., 1900, which he was unable to read. He then charged Wagner with the theft. Wagner appeared for trial last February, when the jury disagreed.

In course of the second trial the letter from the exchanger to Gach, was produced, and an interpreter found to translate it. According to it the Austrian money had been lost in the mails as it never reached the exchanger and he had sent no Canadian money in return.

The case was put before the jury at 4 o'clock Thursday afternoon. In about an hour they brought in the verdict "not guilty," and the accused was immediately acquitted.

### REQUEST FOR GRAIN INSPECTOR

The following is a copy of the letter sent by the secretary of the board of trade to the minister of agriculture, asking him to appoint a grain inspector for Alberta, as set forth in a resolution passed at the board of trade meeting on Tuesday:

Edmonton, Alta., Oct. 28th, 1902.  
To the Honorable  
The Minister of Agriculture,  
Ottawa.

Dear Sir:—At a council meeting of our board held to-day, it was unanimously resolved "That the hon. the minister of agriculture, Ottawa, be asked to appoint, with the least possible delay, a resident Dominion government grain inspector for Alberta." The reason for this is, grain growing has increased so rapidly that in trying to find a market, for oats particularly, we find ourselves in a great measure to Alberta not having any official grades. Several of Edmonton's grain dealers are now, and have been for several months, in communication with Australia. The dealers there want oats which they buy according to graded samples. We cannot send them our samples because we have no grading. We have sent them samples but do not know what the grade is, therefore it is no use, as no dealer will assume the responsibility of shipping from here and then have them rejected in British Columbia or Australia or other distant points. You can easily understand the position. Your prompt attention to this will be a benefit to Alberta's grain growers.

Yours obediently,  
(Sgd.) E. FRASER-TIMS,  
Secretary Edmonton Board of Trade.

**ATHABASCA STAGE.**  
W. L. Wood, manager of the Hudson's Bay Co., at the Landing, and Mrs. Wood came to Edmonton on Saturday's stage.

With Tuesday's stage going north an extra span of horses was taken out to the half way house. They will be left there to change with the span from Edmonton.

Roads are in good shape to the Landing.

**MECHANICS' LITERARY INSTITUTE.**  
The annual meeting of the Mechanics' Literary Institute was held at the reading room last evening and the following officers appointed for the ensuing year:

President, Wm. Short.  
Vice President, A. B. Bushing.  
Auditor, K. W. Mackenzie.  
Secretary-Treasurer, A. E. Jamieson.  
Directors, N. D. Beck, R. Secord, R. V. Bellamy, D. Wade, H. Gilbert, Rev. A. M. Macdonald.

### RAILWAY CONNECTION.

The following telegram in reference to railway service to Edmonton was received this morning by Manager Pace:

Winnipeg, Man., Oct. 30, 1902.

W. J. Pace.

Negotiations proceeding to run freight and passengers Strathcona to Edmonton. Am going Toronto to-day and will wire from that point immediately we can begin doing business. Expect to be Edmonton shortly and will arrange service every way satisfactory to our Edmonton friends. Regret being impossible to make arrangement sooner. Will take up matter of additional construction with Toronto office. Show this message to Mr. Short.

D. B. HANNA.

As Mr. Hanna had not yet received the letter of the board of trade regarding eastern construction the reference in the telegram is in reply to a suggestion made by Mr. Pace in a previous letter.

### CURLING RINK BLOWN DOWN.

Tuesday afternoon, about 5 o'clock, during the gale that was blowing, the new curling rink in course of erection on the block north of the Tent factory, was blown down. The wind came from the west. That side of the building was not boarded in, but the east side and roofs were closed in. The whole force of the wind blew into the building and pressed upward on the roof and outward on the east side.

Suddenly a small cyclone bore down upon the building, curling dust and chips upwards as it crossed the yard cleared for the hockey rink to that west. The moment it struck, the building quivered for an instant then the roof was picked up bodily, the east side blew outward and fell in the lane, and the roof swinging over with it came down on top and flattened out.

A workman was on top of the high roof beside a ventilator when the gust struck. He clung fast and was lowered to the ground quite safely, though one of the posts punctured the roof beside him and was forced five or six feet upwards. The waiting rooms at the south end were levelled to the ground with the rest and the massive structure now lies a tangled heap of woodwork on the ground.

While the loss is serious it is chiefly incurred in the work of tearing to pieces and rebuilding. Very little except the long posts are broken, but a great amount of work is required in removing protruding nails and clearing the wreck ready to commence rebuilding.

A gang of men were started to work next morning, unsheling the roof. One arch for the dome roof of the hockey rink was already raised but was firmly braced and roped and withstood the breeze.

### LOCAL.

—A. Cristall has purchased the Jasper avenue lot next west of T. Houston's fur warehouse.

—J. R. Doyle, of Taylor & Doyle, is removing from Strathcona to Edmonton. The Strathcona office of the firm will be managed by Mr. Dodds.

—Dr. Ferris, who came up from Owen Sound, Ont., some weeks ago to look over the Edmonton district, has decided to remain here and has opened an office in the second floor of the McLeod block.

—The sewer and water mains are covered in as far west as the corner of Fourth and Jasper. The work on Fourth is in progress and will be completed early next week. This will give continuous water mains from the power house to Nanyo avenue. The hydrants will be put in forthwith. Work has begun on the brick sewer on Nanyo.

—A serious runaway accident occurred Tuesday evening shortly after six o'clock to George Shmidt, a farmer. His team took fright on Jasper avenue and ran away throwing him out of the wagon. He was caught by the lines and dragged for some distance. One leg was broken above the knee and badly mangled. He was taken to the public hospital and Wednesday morning the limb was amputated. So far he is progressing towards recovery as favorably as could be expected.

### HARRISON-JACKSON.

On Monday, A. G. Harrison, land agent, left for Calgary, apparently, "on a business trip." Wednesday, he was married to Miss Florence Jackson, of Wingham, Ontario, at the residence of her brother, Mr. Jackson, of Calgary. Miss Jackson is a sister of Mrs. G. T. Bragg, and resided for some time with her sister in this town.

The happy couple arrived in Edmonton last night and have taken up residence in their new house on the corner of Sixth street and McKay avenue. The Bulletin extends congratulations.

### BIRTHS.

Louit.—At Chipeway, Athabasca district, on October 1st, the wife of Peter Louit, Jr., of a daughter.

Mrs. Louit is a daughter of Mr. and Mrs. John Fraser of the Lower Settlement.

—At Horse Hill, on Sunday, Oct. 19th, the wife of J. J. Bell, of a daughter.

## We do not quote Prices in Newspapers

BUT WE HAVE THE GOODS, and our prices are such as to command the trade of the buyers of Clothing and Furishings.

We consider a satisfied customer our best advertisement, and take special pains to thoroughly please and satisfy all who honor us with their patronage.

"Money cheerfully refunded if goods not thoroughly satisfactory." This is the motto we have adopted, and we are living up to it.

OUR FALL STOCK is now complete in all lines.

We offer a full range of sizes, styles and prices in

**SUITS, OVERCOATS AND REEFERS**

**UNDERWEAR, HOSIERY, SHIRTS, COLLARS, TIES**

**HATS AND CAPS. BOOTS AND SHOES.**

**GLOVES AND MITTS.**

**ALSO A FULL RANGE OF FUR OVERCOATS AND CAPS**

PRICES ALWAYS RIGHT.

CALL AND LET US CONVINCE YOU.

## ARE YOU PAYING RENT?

Would you like to own a home of your own?

If so, call at our office and investigate the advantages of securing a loan from The British Columbia Permanent Loan and Savings Co.'s.

Interest dropped on every \$100 of principal returned.

Loans can be paid off in full at any time by giving 60 days notice.

**W. J. RICHARDSON & CO.,** Insurance, Financial, Real Estate Agents. Box 117, Edmonton.

## Fall Millinery

NOTES.

Great interest this week amongst the Fall Hats women are choosing, that is, the forerhand women are. The decisions that are being recorded here this week, we term as sales, will represent the cream of the Millinery business. Those who choose first choose best. We are a little proud of our showing of Women's and Children's Head Gear. It is larger and better than ever. Prices are leaning your way. We invite every lady in town and country to call and inspect our display.

**M. T. MONTGOMERY & CO.**

**PORK PACKERS.**

**The Gallagher-Hull Co.,  
Limited.**

**Farmers, Attention.**

We want all your Hogs and will pay the highest cash price for Live Hogs the whole year round which will give you a permanent market at all times.

At our retail stores will always be found the best U.S. market hogs. Sausages of all kinds our specialties.

**Highest Cash Price Paid for Hides**
